To all who are concerned,

My name is Gino Dipede and I am the owner of **Inspect Now Inc.**, of Stouffville, Ontario. The company has been operating and providing home inspections as well as indoor air/mold inspections for about a year. While many businesses come and go, Inspect Now will be around for a very long time and will withstand the formidable challenges in the home inspection industry. My commitment is founded in being a skilled licensed tradesperson who worked in the home building-construction industry for over two and a half decades, and now is a professional certified home inspector.

Inspect Now Inc. possesses many service-related attributes that you and your clients can benefit from. We are highly trained home inspectors who are also trained to remove indoor odours or contaminants through ozone depletion; a service *tool* every home stager should know about. We take pride in performing quality inspection services. Given these credentials we are well-positioned to meet the needs of the home inspection industry. Feel free pursue our website to view our presentation on Ozone and much more at www.inspect-now.com.

In light of our accomplishments and many positive elements alluded to above, I would like to get together with you to discuss why I believe Inspect Now Inc. should be referred to your clients. To that end, please call me at 647-216-669, or e-mail me at inspectnow@rogers.com to discuss the many fine advantages of doing business with Inspect Now Inc.

Sincerely,

A handwritten signature in black ink, appearing to read "Gino Dipede".

Gino Dipede
Certified Home Inspector
